

GRINDING AND POLISHING

The grinding process involves use of high technological and superior grinding systems and machines by experienced and technical personnel to expose the chips of terrazzo together with the designs and patterns and colour mixtures.

POLISHED FLOORS

The polishing process involves use of modern-day technology in terms of chemicals and polishing tools that produce smooth durable floors with a sparkling gloss that are easy to clean. This is one of the core milestones that make us exceptional from others in this industry.

TERRAZZO RESTORATION

■ We also restore old, dirty, and poorly polished terrazzo floors to smooth mirror-shine gloss floors easy to clean.

WHAT WE DO

Terrazzo installation

Terrazzo restoration

Polished concrete

Gypsum Ceilings

*It takes more than skill to place,
grind and polish a terrazzo floor to
its beauty.*

HOW WE DO IT

- We offer advice to our customers on the different flooring and ceiling options that may be implemented for a specific project.
- We tailor solutions to match budget requirements for our clients.
- We train our clients on the maintenance of their floors and ceilings.
- We use specialized equipment to achieve superior finishes for all our projects.

MANUAL WORKS

CENTRE PIECES AND OTHER DESIGNS

Just like artistry works, we also do terrazzo floors including centre pieces such as brand logos and their pasted designs as well as colour patterns as required by the customers with their original measurements.
